Name			Solo Our S	iolar	System	
Name	1.	Date How many moons does the Earth have?				
		A B	one two	© D	three four	
	2.	How long does it take for the Earth to orbit the Sun?				
		(A) (B)	One day One week	© D	One month One year	
	3.	Whie	ich planet in our Solar System is the largest?			
		A B	Saturn Earth	© D	Jupiter Mars	
	4.	What is the name of the Galaxy we live in?			ve live in?	
		(A) (B)	Andromeda Milky Way	© 0	Comet Sunflower	
	5.	How far away is the moon from Earth?			arth?	
		(A) (B)	30,000 miles 4,567,900 miles	© 0	238,854 miles 857,832 miles	
	6.	How	How many planets are in our Solar System?			
		(A) (B)	7 8	© D	9 10	
	7.	Whie	ch of the following is r	the following is no longer considered a planet?		
		(A) (B)	Mars Mercury	© 0	Pluto Venus	
	8.	Wha	Vhat is the main force that causes the planets to orbit?			
		(A) (B)	Energy Gravity	© D	Wind Orbital Force	
	9.	Wha	What year was the first telescope invented?			
		(A) (B)	1806 1910	© D	1608 1760	
	10.	^{).} Which of the following does the solar system revolve around?			solar system revolve around?	
		A B	Moon Earth	© D	Sun Mars
