

Combine Paper and Online Forms

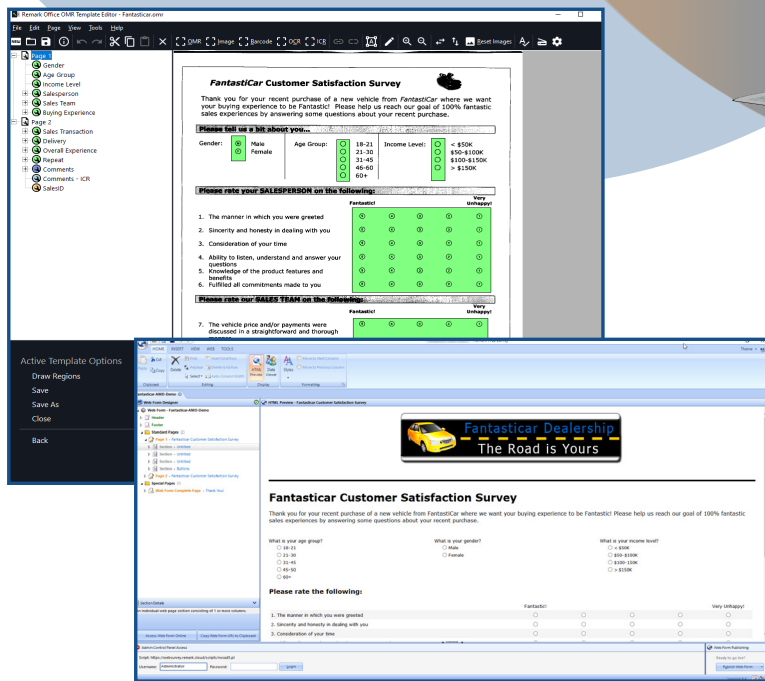

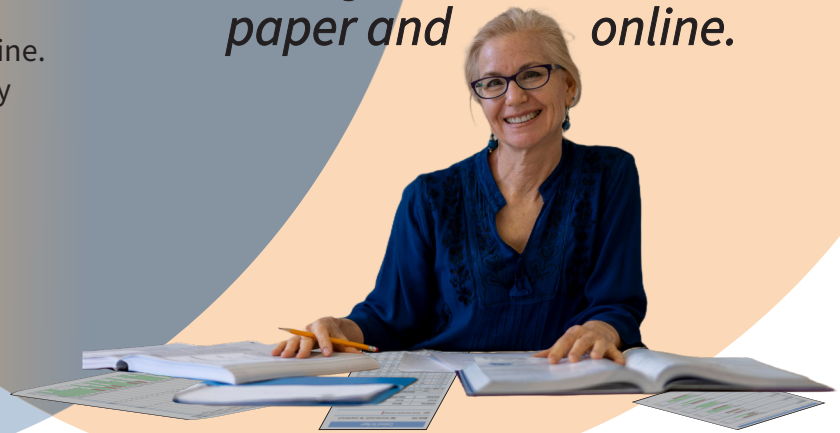

Remark Office OMR

- Design forms in any word processor or design tool.
- Collects data from a variety of plain paper forms.
- Processes forms with any image scanner or copier.
- Forms can contain OMR (fill in the bubble), OCR, barcodes, and ICR (handwritten text).
- Quick and accurate processing of your forms.

Remark Web Survey

- Easily design, distribute, and collect data from online.
- Forms hosted on your website eliminating monthly fees with a third party site.
- You maintain control of your own data.
- Provides unlimited surveys and respondents.

Each solution is designed as a standalone tool for data collection and analysis. When used together, they offer greater reach by distributing the same form on paper and online.

Combined Benefits

- Remark Office OMR and Remark Web Survey work seamlessly together to enable paper and online versions of the same form.
- Convert Remark Office OMR forms into online forms for publishing on your website.
- Provide respondents the option to choose their preferred method for completing your form.
- Easily combine data from both products for one overall analysis.
- Generate powerful built-in analysis reports.
- Exports raw data to over 30 formats including SPSS, Excel, CSV, TXT, and many more.

CREATE a paper form and Remark Office OMR template.

With one click **CONVERT** the paper form to an online form.

Your audience chooses to **RESPOND** via paper or online.

Quickly **COLLECT** and process paper and online forms.

Reports allow you to **ANALYZE** both data sets together.
