Test Grading Cloud Edition

School Grading Solution
www.remarksoftware.com

Remark Test Grading Cloud Edition is a cloud based test grading system built on the industry leading framework of Remark Office OMR and Remark Test Grading Edition software products. This system allows teachers to import class rosters, create plain paper test answer sheets, scan completed tests, grade the test, and export the results to virtually any learning management system. All from the comfort of any modern web browser.

- 1 No software to install, works on any modern browser
- 2 Print your own custom plain-paper test sheets
- 3 Scan completed tests with existing image scanners and multifunction printers

• Simple School Wide Test Grading Solution

Cloud based solution provides easy deployment throughout your school. Leverage existing school devices (scanners, printers, and MFPs) for printing test forms, scanning completed tests, and printing a variety of analysis reports. Teachers can build custom answer sheets including multiple choice, true and false, open ended, and math grids. Grading plain paper tests has never been easier!

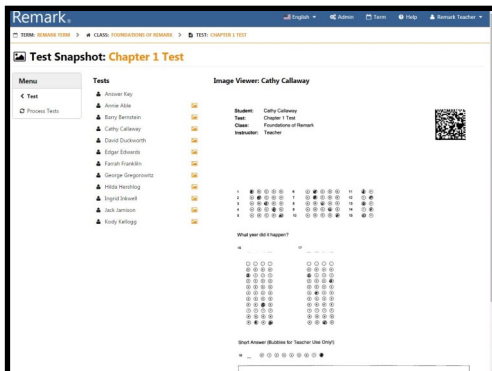

• Built-in Grading Analysis and Reports

Remark Test Grading Cloud Edition contains powerful analysis reports for viewing student, class, and test performance. Teachers can include Learning Objectives to see how students perform on specific standards or learning outcomes. In addition to the built-in test grading reports, grade information can be exported to most popular learning management systems, including Blackboard, Moodle, Canvas, or just CSV for most other systems.

Simplify Your School's Test Grading Process

Main Features

- Print and process plain-paper tests with existing MFPs, scanners, and printers
- Built-in test grading reports at the student, class, and item level
- Create simple answer sheets in seconds or customize with math grids and open ended questions
- Print teacher, class, and student information on test sheets
- For larger classes, create generic answer sheets with bubble-in IDs
- Import TIFF, PDF, or JPG images
- Email test form images directly from MFPs to Remark Test Grading Cloud Edition

Key Benefits

- Cost savings over traditional test grading systems
- No installed software
- PC and Mac compatible
- Leverage existing MFPs and scanners
- Quickly grade tests and provide instant feedback to teachers
- Customizable grading
- Easily export data or grades to existing systems

About Gravic—Remark Products Group

The Remark Products Group of Gravic, Inc. is a global provider of innovative software solutions for collecting and analyzing data. Since 1991 we have been continually refining and perfecting our solutions for our growing customer base. With over 75,000 customers worldwide, our solutions are versatile and suitable for various markets and industries. What drives our knowledgeable staff and resellers is a passion for providing the best software solution for your data collection needs.
