The Innovative Solution to
Your Data Entry Needs!

RemarkSoftware.com

Remark Office OMR. If you can read it, we can read it! Since 1991, Remark's superior OMR software has powered countless data collection processes for schools, universities, businesses, non-profits, governments, hospitals, and anyone else who needs to collect and analyze data from paper forms.

Make

Create your
own forms.

Scan

Use any
scanner.

Analyze

Generate detailed
reports instantly.

For Any Occasion

Our users have found thousands of applications including surveys, tests, assessments, evaluations, ballots, time sheets, registrations, safety observations, and many more.

Eliminate Manual Data Entry

Remark Office OMR collects data from your own unique "fill-in-the-bubble" forms using almost any image scanner. Process any number of forms.

Built-in Analysis and Reports

Take advantage of the built-in analysis reports, or export collected data to a variety of popular file formats including Excel, SPSS, CSV, and many more.

Main Features

- Recognizes OMR marks (bubbles/checkboxes/shapes), barcodes, and machine printed text (OCR).
- Reads handwriting with your Microsoft Computer Vision account (ICR).
- Image capture zones facilitates data entry or capture of parts of the form.
- Handles cross-outs, multiple marks, damaged forms, and other anomalies.
- Respondents can fill out your forms with pen, pencil, marker, etc.
- Built-in detailed analysis and reports.

Key Benefits

- Works with plain paper— no special ink or paper required.
- Works with a wide variety of common scanners, no special hardware required.
- Easily export raw data to popular formats such as Excel, CSV, TXT, and many more.
- Reads image files (PDF, JPG, PNG, TIFF) created by copiers, scanners, and scanning apps.
- Sophisticated validation and transformation of data read from forms.
- Full-featured reporting capabilities.

Why Remark?

- 30 years experience as the world's leading OMR software.
- Over 100,000 customers in 130+ countries.
- More than 1 billion forms processed and counting!
- Industry-leading customer support team.
